Section D – Risks

Element	Description of Element	Disclosure requirement
D.2	Key risks specific to the Issuer	<p>There are certain factors that may affect Issuer's ability to fulfil its obligations under Securities issued under the Programme. These include the following risk factors related to the Mediobanca Group, its operations and its industry:</p> <ul style="list-style-type: none"> (i) The general economic conditions, the performance of financial markets, interest rate levels, currency exchange rates, changes in laws and regulation, changes in the policies of central banks, particularly the Bank of Italy and the European Central Bank, and competitive factors can change the level of demand for the Issuer's products and services, the credit quality of borrowers and counterparties, the interest rate margin of the Issuers between lending and borrowing costs and the value of the Issuer's investment and trading portfolios. (ii) The European sovereign debt crisis may adversely affect the Issuer's results of operations, business and financial conditions. (iii) The Mediobanca Group has exposure to European sovereign debt. (iv) Fluctuations in interest and exchange rates may affect Issuer's results. (v) The financial results of the Issuer may be affected by general economic, financial and other business conditions. (vi) The credit and capital markets have been experiencing extreme volatility and disruption in recent months. (vii) The Issuer's investment banking revenues, in the form of financial advisory and debt and equity underwriting fees, are directly related to the number and size of the transactions in which the Issuer participates and may be impacted by continued or further

		<p>credit market dislocations or sustained market downturns.</p> <p>(viii) In some of the businesses of the Issuer, protracted adverse market movements, particularly asset price declines, can reduce the level of activity in the market or reduce market liquidity.</p> <p>(ix) In recent months, international and domestic markets experienced extreme volatility and disruption. If extreme volatility and disruption continue in the future, the Issuers' liquidity can be adversely affected.</p> <p>(x) If the Issuer is unable to continue to respond to the competitive environment in Italy with attractive product and service offerings that are profitable for the Issuers, it may lose market share in important areas of its business or incur losses on some or all of its activities.</p> <p>(xi) If existing or potential customers believe that the Issuer' risk management policies and procedures are inadequate, the Issuer's reputation, and to a certain extent its revenues and profits, may be negatively affected.</p> <p>(xii) The Issuer, like all financial institutions, is exposed to many types of operational risk, including the risk of fraud by employees and outsiders, unauthorised transactions by employees or operational errors, including errors resulting from faulty computer or telecommunication systems.</p> <p>(xiii) Systemic risk could adversely affect the businesses of the Issuer.</p> <p>(xiv) The investors should note that the portfolio of the Issuer contains so-called "overthecounter" (OTC) derivatives. If the financial condition of market counterparties or their perceived creditworthiness deteriorates further, the Mediobanca Group may record further credit valuation adjustments on the underlying instruments insured by such parties.</p> <p>(xv) A downgrade of Mediobanca's rating may limit Mediobanca's opportunities to extend mortgage loans and may have a particularly adverse effect on Mediobanca's image as a participant in the capital markets, as well as in the eyes of its clients.</p> <p>(xvi) Changes in the Italian and European regulatory framework could adversely affect the business of the Issuer.</p> <p>(xvii) The Issuer may be subject to increased capital requirements.</p> <p>(xviii) The price or value of a Securityholder's investment in Securities and/or the ability of Mediobanca to satisfy its obligations under the Securities may be affected by the finalization and implementation of the Crisis Management Directive.</p>
<p>D.6</p>	<p>Key risks specific to the securities</p>	<p>In addition, there are certain factors which are material for the purpose of assessing the risks related to the Securities.</p> <p>General</p> <p>(i) The Securities may not be a suitable investment for all investors. Investors should be aware that they may lose the value of their</p>

		<p>entire investment or part of it, as the case may be.</p> <p>(ii) An investment in the Securities, which are linked to the Reference Items, may entail significant risks not associated with investments in conventional securities such as debt or equity securities. Set out below is a description of the most common risks.</p> <p>Risks related to the structure of a specific issue of Securities</p> <p>(i) The Securities involve a high degree of risk, which may include, among others, interest rate, foreign exchange, time value and political risks. Investors should be prepared to sustain a partial or total loss of the purchase price of the Securities.</p> <p>(ii) Certain general risk factors related to the Securities referencing a Reference Item, including that the market price of the Securities may be volatile; that investors may receive no remuneration; that investors may lose all or a substantial portion of their principal in case of non-capital guaranteed Securities; that the Reference Items may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other securities or indices; that the timing of changes in a Reference Item may affect the actual yield to investors, even if the average level is consistent with their expectations; and Securities are of limited maturity and, unlike direct investments in a share, investors are not able to hold Securities beyond the Settlement Date in the expectation of a recovery in the price of the underlying.</p> <p>(iii) The Cash Settlement Amount at any time prior to expiration is typically expected to be less than the trading price of such Securities at that time. The trading price may differ from the Cash Settlement in spite of Trading costs for the Securities. The difference between the trading price and the Cash Settlement Amount will reflect, among other things, a "time value" for the Securities.</p> <p>(iv) Prospective investors intending to purchase Securities to hedge against the market risk associated with investing in the Reference Item should recognise the complexities of utilising Securities in this manner.</p> <p>(v) Risks relating to Share Securities.</p> <p>(vi) Certain risks related to the remuneration applicable to the Securities</p> <p>Risks related to specific pay-outs applicable to the Certificates</p> <p>(i) Risks relating to the Participation Factor.</p> <p>(iii) Risks associated with the early redemption of the Autocallable Certificates.</p> <p>Risks related to Securities generally</p> <p>(i) The Terms and Conditions of the Securities contain provisions for</p>

	<p>calling meetings of Securityholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Securityholders including Securityholders who did not attend and vote at the relevant meeting and Securityholders who voted in a manner contrary to the majority.</p> <p>(ii) The Terms and Conditions of the Securities also provide that the Fiscal Agent and the Issuer may, without the consent of Securityholders, agree to certain modifications to the conditions of the Securities.</p> <p>(iii) If an issue of Securities includes provisions dealing with the occurrence of a market disruption event or a failure to open of an exchange or related exchange, any consequential postponement of the Valuation Dates may have an adverse effect on the value of such Securities.</p> <p>(iv) A holder of Securities must pay all Expenses relating to such Securities.</p> <p>(v) The Issuer shall not be liable for or otherwise obliged to pay any tax, duty, withholding or other payment which may arise as a result of the ownership, transfer, exercise or enforcement of any Security by any person and all payments made by the Issuer shall be made subject to any such tax, duty, withholding or other payment which may be required to be made, paid, withheld or deducted.</p> <p>(vi) It is not possible to predict whether the taxation regime applicable to Securities on the date of purchase or subscription will be amended during the term of the Securities.</p> <p>(vii) If the Issuer determines that its performance under any Securities has, or that any arrangements made to hedge the Issuer's obligations under any Securities have become, (i) illegal in whole or in part for any reason, or (ii) by reason of a force majeure event (such as an act of God, fire, flood, severe weather conditions, or a labour dispute or shortage) or an act of state, impossible or impracticable, the Issuer may cancel such Securities.</p> <p>(viii) The Terms and Conditions of the Securities are based on English law in effect as at the date of this Base Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to English law or administrative practice after the date of this Base Prospectus.</p> <p>(ix) The risks associated with the Securities being represented by one or more Global Securities, which will be deposited with a common depository for Euroclear and Clearstream, Luxembourg.</p> <p>(x) Risks associated with certain potential conflicts of interest.</p> <p>(xi) The risks associated with it being impossible to know the amount of the Securities in circulation on the date of issue.</p> <p>(xii) The impact on the price of the Securities if further tranches of</p>

		<p>Securities are issued.</p> <p>(xiii) The amount that Securityholders may receive in certain circumstances will be adjusted upwards or downwards to reflect the costs of unwinding any associated hedging transactions relating to the Securities.</p> <p>(xiv) The Issuer and other financial institutions through which payments on the Securities are made may be required to withhold U.S. tax at a rate of 30% on all, or a portion of, payments made after 31 December 2016 in respect of (i) any Securities characterized as debt (or which are not otherwise characterized as equity and have a fixed term) for U.S. federal tax purposes that are not yet outstanding as of 1 January 2019 (the "Grandfathering Date"), or the date of publication in the Federal Register of final regulations defining the term "foreign pass thru payment" or are materially modified from that date and (ii) any Securities characterized as equity or which do not have a fixed term for U.S. federal tax purposes, whenever issued, pursuant to Sections 1471 through 1474 of the U.S. Internal Revenue Code or similar law implementing an intergovernmental approach to FATCA.</p> <p>Risks related to the market generally</p> <p>(i) Application has been made by the Issuer (or on its behalf) for the Securities to be admitted to trading on the multilateral trading facility of EuroTLX with effect from the Issue Date. Mediobanca-Banca di Credito Finanziario S.p.A will act as liquidity provider.</p> <p>(ii) Credit ratings may not reflect all risks.</p> <p>(iii) The investment activities of certain investors are subject to investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers.</p> <p>(iv) Implicit fees (placement fees, structuring fees) may be a component of the Issue Price of the Securities, but such fees will not be taken into account for the purposes of determining the price of the relevant Securities in the secondary market.</p> <p>(v) The Issuer, in agreement with the Distributor, may have the right to withdraw the offer in relation to the Securities, which in such circumstances will be deemed to be null and void.</p> <p>(vi) Mediobanca will use all reasonable endeavours to maintain the listing of the Securities, provided that if it becomes impracticable or unduly burdensome or unduly onerous to maintain such listing, then Mediobanca may apply to de-list the relevant Securities.</p>
